THE GREEN
EDITION

The Arsenal Inspiration

You are the lucky recipient of our first Arsenal Box and we proudly present to you “The Green Edition”. As summer slowly comes to a close, we have an array of gifts for you that are on par with a nice game of golf on a sunny day. Just pick up your chilling towel, sunglasses and hat and you are ready for the green!

Have you ever had the urge to drive a golfball right through a windshield? Well, Equalizer® made quite the commotion at Auto Glass Week in Indianapolis and did just that! Golf balls were flying and windshields were cracking left and right. We found it only fitting to kick off our first Arsenal Box with the same glass shattering, BANG.

We are also giving you a debut of Equalizer®'s products of the quarter which include handy tools for rearview mirror repair and installation. This box gives you \$275 of products and gifts to build up the Arsenal of your trade! Welcome to the League and enjoy your unboxing!

KEEPING LIFE

We all want to drive a hole in one, but sometimes life has unexpected sand pits where we don't want them. Find ways in your life to stay on the green even when you're feeling like you are in the off-season.

Don't forget to treat yourself with a balanced life of work and leisure, even when they try to merge together.

Where is the "green" in your life?

On Par

- 1 Focus on what changes you need to make to improve your swing on life.
- 2 What is the main factor that needs to change for you to make that improvement?
- 3 Keep your center, breathe through the wind up and hit it hard with all you've got.
- 4 Never regret the result, but always learn from the process.

ALL IN ONE MIRROR TOOL

Equalizer[®] All-In-One Mirror Tool has six devices that work on a wide range of foreign and domestic vehicles. It features #2 Phillips, T15, & T20 drivers as well as hook and pick devices that are perfect for loosening, prying, aligning, & unfastening tabs & snaps.

REAR VIEW MIRROR INSTALLER

Designed for re-installation of spring-loaded mirrors. Just set the upper jaw against the rearview mirror, put the nylon block against the rearview mirror mounting bracket and squeeze the handles. The mirror is forced quickly and easily onto the mounting bracket with little to no chance of breaking the glass!

Not just your ordinary toolbox...

KLINGON™ REARVIEW MIRROR ADHESIVE KIT

To use KlingOn™, clean the glass and mirror bracket thoroughly. Brush the primer on the glass where the bracket will be installed and then brush the primer on the mirror bracket. Let the primer dry then apply two drops of the adhesive to the bracket. When you are ready to install the rearview mirror bracket, be careful to place it exactly where you want it.

TIP:

Most technicians mark on the outside of the glass to guide correct placement of the bracket since removal can be almost impossible after you have attached it.

Be sure and wait 3-4 minutes before installing the rearview mirror back onto the bracket.

Kit includes 0.5 Fluid Ounce Bottle of Rearview Mirror Adhesive and 0.5 Fluid Ounce Bottle of Primer.
