# ABOUT US

**THE ONLY SOLUTION DEVELOPED BY A GLASS MANUFACTURING COMPANY FOR THE AUTOMOTIVE GLASS INDUSTRY**

Introduced in March 2017, Pilkington North America's Opti-Aim™ is the first calibration tool developed by a glass manufacturing company for the automotive glass industry. We offer several options for adding calibration to your business and provide coverage for every major automotive manufacturer in the industry. Whether you choose our precise calibration tool or the completely fitted deluxe kit, your Opti-Aim™ calibration solution is optimized for efficiency in calibration.

*Completed to OEM Specifications*

*Calibrate Any OEM Quality Glass*

*Quality Customer Service*

*Step by Step Calibration Instructions*

*Become a 1 Stop Shop*

*Training and Certification*

 **Opti-Aim™**

J2534

*Remote calibration via OE software gives you the ability to calibrate new model vehicles as soon as they roll off the lot, helping to eliminate any vehicle coverage gaps.*

REMOTE SUPPORT

*Our Opti-Aim™ Support Team can access your tool remotely to walk you through any calibration. We are available by phone or email Monday thru Friday from 8am-7pm EST.*

REPORT

*Calibration reports, daily activity reports and DTCs can be generated and sent as an email or printed for company records, customers and insurance companies.*

*Calibrations completed using Opti-Aim™ are guaranteed when used with Pilkington or OE automotive glass.*
