

X-431 ADAS HD (701030001)

PROFESSIONAL COMMERCIAL VEHICLE ADAS CALIBRATIONS

- The innovative foldable design supports 3 modes, fully folding, semi folding, fully deployed, and able to meet the needs of storing, moving and calibrating.
- Millimeter precision laser range-finder for accurate measurements. No need for tape measurements anymore.
- Multi-directional fine-tuning is supported without moving the calibration tool, including forward/backward, left/right and horizon directions, getting parallelized and centralized within 1 minute.
- The professional diagnostic software on a Launch scan tool provides detailed step by step instructions to help users quickly perform calibrations correctly.
- The upgraded aluminum alloy frame makes the calibration tool more durable.

★ COMPLETELY FOLDABLE DESIGN ★

★ HIGH PRECISION ★

★ EASY-TO-USE ★

Launch X-431 ADAS HD, the first commercial vehicle-specific ADAS calibration equipment launched in the market, features fully foldable frame and high-precision laser range finder. It is a professional and remarkable ADAS calibration tool for heavy-duty trucks.
